WOMAN... A MARVELLOUS CREATURE

Letter to the Women

Prot. 07.34 - 04.02.2007

It is necessary and urgent that the woman rediscovers her own identity. The woman must re-enter into herself and she re-appropriate her own feminine creator essence. The woman in God has intuitive capacities and superior practices, towards a fluid transformation of herself for personal well being, for the family and for the society.

IT IS EXTREMELY IMPORTANT THAT THE WOMAN WILL BE CONSCIOUSLY AWARE OF THIS. Humanity can not socially better itself if the woman refuses the role established by God for her. The woman is a marvellous creature if she is in God, and Holy Mary is a sublime example. Holy Mary must not be looked at as an unreachable being, she must be looked at as imitable. The Father had foreseen different roles for man and for woman, though equal in human and social rights. The roles are not established on the paper but in the DNA of everyone. To subvert the natural order provokes psycho-physical unbalance that can be manifested in various forms and diseases are not to be excluded. Woman by nature has the necessity of time that are different than those of man, with primarily peaceful rhythms. These peaceful rhythms, if respected, take the woman to the listening, to the acceptance, to the tenderness, to the love, to the order, to the organization, to the management, to the maternity and therefore to the True Life in God. Creating unbalance in the rhythms, the woman finds herself to face a hostile territory because it is not compatible with her essence. Forcing herself to be that which she is not in nature, adapting to a masculine behaviour, she obligates herself to be divided into two.

But it is the feminine part that obligates her to act in an unnatural way.

Once the will is strong, it induces the woman to behave like a man, though having to exercise the role that has been established for her. And there then that she erroneously lives her life, two working situations, therefore with double preoccupations and double complications. But who he is that divides? Satan! He has been able to fool the woman well, making her believe that emancipation is, and must be, out of the family environment. **THIS IS COMPLETELY WRONG!**

If the woman will not humbly able to return on her own steps, the family and the society, will definitively crumble. The woman who excludes the maternity, and she control it in every way, adapting it to her own personal needs so much that to aborting, is a woman who cooperates in the destruction of Humanity wanted by satan. This type of woman is not a daughter of God.

If she is she would behave as a woman as has been established in the Beginning by God. Ours is the time that confirm these words. The disastrous results show the errors that have been done. The divided families reflect the divided society, and that which is divided loses strength, that strength which comes only from union. God has given woman the ability to « pro-create », that is to continue to create that which the Father has already created.

IF THE WOMAN REFUSES HER OWN COMMISSION SHE IS NO LONGER A WOMAN.

She is no longer the marvellous creature that Jesus loves a lot in His Mother Mary, **THE WOMAN.** I wish to remain in silence after these words. A silence that must make you meditate on Life and on the continuity of Life, because the Father desires that His Masterpiece be daughter, woman, bride and mother.
