

THE DEATH

FROM DEATH IS NOT NECESSARY TO HAVE FEAR
IF ONE LIVES IN GOD

Letter of Conchiglia

Prot. 09.178 - 19.01.09

Dear brothers and dear sisters,
the Holy Spirit is in action and the Prophets prophesy and they communicate to the world the Words of God that are not still taken in serious consideration.

The argument is delicate but it should be confronted.

I want to confront with you the event of the death talking in a serene but serious way.

We all have to die to be able to return to God. But from death it is not necessary to be afraid if one lives in God respecting His Commandments.

The Commandments are reins to your disrespectful term toward God, during the journey of life over the Earth, and they allow you to follow a well delineated plan from which you shall not stray absolutely, since the sentence it would be the Eternal Death of your souls.

I don't want to scare you, I want to lead you so that you don't fall in the trap of Satan who corner you so that you lose the Soul because he hates you. To get death is like getting an exam of maturity and only if one is very prepared it is promoted.

To get ready to the death, it means to put into practice the Law of God, also respecting in the field where one lives the law of the men when it doesn't go against the Law of God.

Indeed still I say giving to God what is God's and to the Caesar what is Caesar's for not doing some scandal. For the death it is necessary to get ready, since you don't know the day and the hour that you will confront it and that moment could be very near... maybe today.

And then what do you will make?

To practice the Law of God it is necessary and urgent to study it and it is decisive to really know His Word that it wants to instruct you to prepare you growing spiritually.

The spirit should be fed as the body is fed otherwise in both cases it deteriorates and dies. As far as which it concerns the body it can contain a limited amount of foods, otherwise they are rejected, while the spirit can contain everything consecutively, without any limit and to rise in an unimaginable way.

The spirit doesn't have confines and limitations, indeed you can be sick in a bed or wheel chair, but to have a spirit that flies free and in that high to join God.

However in spite of this, the spirit and body interact. Indeed if the actions are directed to complete fair acts in God, the spirit rises, while if the actions are directed to complete unjust acts and against the Law of God... the spirit minimizes. And what happen when does the spirit minimize?

They enter in game diverse factors. It gets lost consideration itself, it gets lost trust in life, it feels weak to confront situations, to such a point, to take off the life.

I am here to tell you that that I love you in God's way and I advise you of putting order in your life... to be grateful and to recognize to who has made you, to make the good and forgive to who has made and makes you evil. Only if you make like you will be able to complete the following step, that is to say, to adorn your soul with each kind of virtue, beginning with humility then patience, which will make you understand the Charity that God understands, because charity means to love, to love, to love, since God is Love and THE INFINITE is in the center of this word.

In the Holy Mary's prayer we say:

Holy Mary Mother of God, pray for us sinners, now and in the hour of our death.

But it is exactly to help you that Holy Mary, Our Lady of Guadalupe, has donated me for all you this very small and beautiful pray that I suggest to recite with love:

*Holy Mary always stay with me, protects and sanctifies each action that I will make... and thus it is.
Amen.*

I tell you that what we have seen to Jesus' exterior, about His sufferings that have taken him to the death on the Cross... it was not everything.

It was Jesus' spiritual part that was the most tormented one, the most lacerated one, the most bleeding and that kind of sufferings are immense. In spite of that, Jesus' Heart, separated a place where there was only space for the happiness and this happiness has been the result of what He saw that is to say, He saw all of us that now wait Him with love.

Returned toward Jesus, you could say:

But You are God! And seeing the results in the time to come You cheered up, but for us it is difficult because we don't see anything. Rather, who has made us and still makes us evil, enjoys beyond the measure of our sufferings and it deceives us, mortifies us and humiliates us. And when all goes well it demonstrates total indifference.

Dear brothers and dear sisters,

it is true, but is properly at this time you have to use that beautiful gift that has been given you that is to say the Faith. You have to believe in Jesus who is God and in His Word to trust blindly since everything He has proven before you.

Be serene! I assure you that the smallest in your offered sufferings will not even get lost since the Father is Just, Saint and His balance is perfectly on your pain and weight even the shades so that anything goes lost.

Dear brothers and dear sisters,

Holy Mary is silent but present next to each one of you and in each place where you are and She picks up those tears and that blood that it falls and that you don't pick up because your since weakness and pain and she takes them to the Father. Even use Mary if you don't have the force.

Say like this:

Mary, my Mom, I am not able to offer the Father my pain, I am too incredulous and I don't have enough Faith..

For that reason, say like this and Mary will also intervene picking up the crumbs of your pain and she will put them on a wonderful tray and she will give it like gift to the Father for you.

She will be the bearer of your pain and She will be guarantor for you with the Father that anything denies Her and everything accepts of Her hands, since her hands have always been in first plane, be to pray, be to take care of Jesus in each thing, be to pick up Jesus Died and to caress Him for last time before Resurrection.

Dear brothers and dear sisters,
to imitate Jesus is the way to arrive to the True Life in God.
Jesus had been able to teach you His Power, His Greatness, His Majesty, His Superiority, His Wealth, His Justice... on the other hand He has shown His Pain that has accepted to Want of the Father to expiate the humanity's sins.

If Jesus had taught the enumerated things they would not have loved Him as he wanted.
He has shown Nude of all His external Divinity, teaching you His interior and hidden Divinity, the one that is not in fashion neither it makes clamor or appearance, since hidden and invisible to the fools and the children of the hardened heart, on the other hand... super visible to the pure and in love hearts of the good and justice.

One day Jesus has told me:

" The Love is thirsty of love... it is thirsty of Its Souls. It is thirsty and it satiates its thirst with the tears that flow of the offered pain. Conchiglia... you request Me of stopping it... since it is strong the pain but also in the Heart I said enough... while they hung Me on the Cross's Timber and I wondered: Father why do they make Me this? I love them. I want to take them to all toward You. I want the salvation of their Souls. And You Father instructed Me saying to My Heart: Love my Son ... loves until total donation of You; donating you to yourself you donate Me to all of them since they are part of You.

But I didn't feel Father... later... only later have known! I saw darkness surrounding. I felt the ice of the death. I felt the Blood to leave all My Body. I felt the hate on Me and I didn't understand the reason of it. Oh Father... what a pain I have suffered in verifying that it no longer felt you! I was alone... I was abandoned... I was as if You had forgotten Me. Oh...what a pain My Father. How I have not been able to understand... How I have not been able to sense that it was not possible has been abandoned by You? I also ask You for forgiveness Me... Father! Me Jesus... that I am God... I ask You for forgiveness to have believed of being abandoned. Yes Father... My brothers will be surprised when hearing these Words but I feel necessity to ask you for forgiveness! And do you know why?

To give example to My brothers... to those that feel to the repair of all wrong and of all sin.

To those that believe of being saved because love You . Yes... My children and My brothers... Don't be surprised reading these words dictated to this daughter that so much loves and suffers. But do you know what's the true suffering? The true suffering is to have everything and to see that is take it... you say! No... children! The true suffering is not the suffering but offering and do you know why? Because when something is removed you don't have to put your anger. In that moment you suffer violence!

It is true... suffering is meritorious but to a certain extent since is not your will the one that is violated. The true violence is that one made through the offer and do you know why? Because to give what it is loved more, it is painful to that which is wanted more he/she is painful; children... it is sometimes unacceptable... it is unacceptable the pain that it feels in being made violence to oneself. And do you know why? Because there is a difference. And do you want to know which the difference is?

The difference consists on knowing what it is going to make... in knowing what is going to offer to be deprived of it. The unconsciousness.... it saves you pain. The conscience... it increases you pain.

There is here the great merit children! To give to God that suffering of more... in fact offered with your own hands. Yes... those hands that alone they become toward you and they open the heart to you... and it takes you the most beautiful thing that there is guarded in it. You say: what is the most beautiful thing in a heart? The love... children! There is here the most beautiful thing that there are of all the other things: The love! When I told to the rich youth (1) Sell all that you have and give it to the poor ones and then come and follow me... I have said a strong thing. But if now I say: sell everything and give it to the poor ones... and then give me the love that you have in the heart and then come and follow me... it is even stronger and more painful since the love is like the suffering and these things really belong you. They are yours! They are part of you! And they cannot separate from you!

3

The suffering... Like so... although you offer it to Me it is on your body and is the same with love. But while the suffering you offer it easily since you don't want it... the love is not possible to offer it easily and do you know why? Because the love is beautiful. Love likes you. The love gratifies you. The love makes you feel alive. The love makes you glow from your interior. And then do take your conclusions... It is easier to offer the suffering or the love? I tell you children... Me that I have offered as much the suffering as the love, I tell you that it is more difficult to offer the love because without it you feel naked and vulnerable and you feel empty of yourselves since have been created by love and you need love ... in fact as Me that am absorbing everything of this daughter and when she thought to have offered everything of herself... I have given her something that could offer for all her siblings so that the offer was constant. And do you know why I say constant? Because the suffering... in at certain moment it puts end to the death while the love is eternal since it comes from God. Yes children... take in abundance what I have given you and enjoy it so that anything is wasted."

Dear brothers and dear sisters,
the world feels that something is about to happen. Each people of each religion and race, they know that there is something new in arrival. And it is known the new one always scares man since the man who only wants to be surrounded of earthly certainties, fool that is not other, doesn't trust in God and he doesn't believe in His Existence. God has never accepted the man to lean to adore to the idols of any species and every time He has punished the man to make him understand the way of salvation. Every time the man has had to experience the pain caused by the same mistaken elections and he will also have now to confront the consequences of the same errors since the Humanity has not retained anything of the last experiences. The Humanity had to make beautiful treasure of the tears and the blood poured by many siblings and on the other hand he is more idolatrous than before.

The Death has entered in the world because of Satan that has become a hybrid humanity through Adam . If you knew that horrible aspect has the demon who well hides to the world. All the unimaginable horrors, all the nauseous fragrances, is very represented by him in the eternal hells. The demon is the most monstrous being that you can imagine. He incarnates the evil in its essence and transcends of each human logic, since the worst, more ferocious, abject, terrible, blasphemous, murderous and diabolical man... it is anything in comparison!
God is Immense and Perfect Love and Satan is the immense and perfect evil that no human mind will never be able to equal. This is his final time and will demonstrate you his value in the evil. If you only knew you would kneel down wanting the death at once before one look of him.

Dear brothers and dear sisters,
men have to realize through the pain as much as they are responsible of the own errors... when these spill out on the innocent of the pure heart that sometimes rebel and they are sometimes able to suffer and support.
It is hard the way that you have in front and each test that you overcome it prepares you to the superior test.
Jesus is next to you, but what do you'd make if you were really alone? Would you abandon Him?
These words Jesus has also said to me:
" Conchiglia, would you Leave all your brothers in Me... without My Word? Yes... because will come days... in which you will say coarse... still more than today. It is just the beginning of the Calvary programmed for you! Once I told you that you were almost in the summit. And then? No... Conchiglia... there is not contradiction in Me! But what do you would make... if you were speaking and comforting your son? Would not you look for giving him anger? Making him the torment less heavy? Would not you look for making him to see the end of that pain? And this... because you love him and you are mad to see him suffer?"

4

There is here Conchiglia ... I am making this way with you. You have not still arrived to the one it culminates of your pains of the heart. It is for this reason that I allow... that every time you experience the pain a little more.

I love you Conchiglia... My small tramped Conchiglia. Remember whenever the offenses and the humiliations that you receive and that all My children receive... they are the beautiful payment that will make fructify the New Earth. You... offer me all Conchiglia because ... I never request to My children...more than you can support and you know that I conserve each poured tear zealously... since the tears of My suffer children have more value than the world imagines."

Mary's heart has also been wounded next to Jesus' heart and the pain of Mother was mortal pain, for this she knows well what the spiritual pain is. It is true, it can't be seen but one lives until the final and further on, since while the corporal death comes, the Soul gets rid toward the Sky and it doesn't suffer more, while who sustains who dies close, continues dying of pain and never exhale!

Dear brothers and sisters,

don't have pain for the one who goes toward the Father's Arms. The Father, always knows the moment of the return of His children, you do not. Now they are in the peace if they have wanted of being with God. All have the possibility to accept or reject the Mercy of God. Each thing that happens is not never at random, and the Father everything allows for the good of the Souls of His children.

It is always who is here that should meditate about the Mystery of Life and Death, since each one is responsible for the same actions, before the Father's Eyes. Open the eyes of your mind and open your heart. Let that the Omnipotence of God is shown to you with all the Love and leave you to print in the heart the true value of the Life. The pain has to be a moment of spiritual growth and offer, so that through it, you can understand of the effective value of each individual instant of life that is granted you on the Earth. Meditate, pray and love among you as Jesus has loved you.

The health of the body doesn't have to excel about the Alma's health. The body is the cover that covers the most beautiful thing God has created at that has created of more beautiful God. The body is Temple of God and therefore it should be respected in all senses.

But I want that the biggest attention be toward your soul. She is rich of each treasure and before Father's Eyes it represents the Same God in Earth through your love, since He has created you to His Image and similarity.

When you see a man or a woman with big physical problems, you see a formless and sometimes scruffy being that to the Father's Eyes, it represents the absolute beauty in God, since He looks at His son's soul. Today's society... guided by the evil one in person has confused you the mind and induces you every day to take excessive cures of the body in detriment of the soul. Curing the body a lot, little time is to think and to meditate and to dedicate the time that God wants to prayer.

The prayer is the soul's life. Without it, the soul slowly withered and dies as a plant when water's missing.

THE FAITH IS A GIFT THAT COMES FROM GOD AND THE PAIN... DISAPPEARS WITH THE DEATH SINCE IT IS THE DEATH THAT TAKES THEM TO THE LIFE, TO GOD. THAT LIFE THAT JESUS HAS PROMISED TO ALL, TO ALL... IF YOU LISTENED HIM.

Anything finishes when exhales, God donates the time of understanding and knowing where will end up according to that will decide. The election between good or evil depends on you, until the last instant will you have this opportunity, nobody will be able to say « *not wise* », God gives to all the same freedom.

To die means to revive in Jesus. The fear that tortures the body leaves it to Jesus. Donate him the whole pain, your fright, your last instant... and in an instant they will be with Him.

Pray to Jesus with a lot of love since He knows well what the Death is. He has preceded you and also followed you to make you see as much as He loves you. The Death is only an instant. The Death is a passage to the Life. The Death disappears in the anything if you are in the God's grace.

But woe of those fatuous ones, in an instant they will be wrapped up of it, run over by the eternal hells, pleasing the terrible enemy who waits every time the favorable moment, to make you fall in the mud and in the vice. He waits patient each soul and he sings victory when snatches the souls to Jesus. The Judas are so many... the murderers are so many, the vicious ones are so many... the lazy ones are so many... it is the nothing for which has not listened Jesus, then it will be Jesus that won't listen. Jesus will open the DOOR OF THE ROYAL ROOM to all His poor... that were away from the tables of the rich ones, He will open up his flourished gardens where they will walk happy...

Don't cause astonishment the pain foreseen for each one of you, you already know it... you have proven it... **THEY HAVE INSULTED THEM, THEY HAVE HUMILIATED THEM, THEY HAVE REJECTED THEM, THEY HAVE EXPLOITED THEM, THEY HAVE BETRAYED THEM, THEY HAVE DISCARDED THEM, AND THEY HAVE NOT BELIEVED THEM!**

They have made that the death of a loved being seemed the end of everything, but the loved being is with Jesus and they looks you astonished, because they don't understand your pain. With Jesus it is only happiness... therefore be calm... because after life is stupendous. They have convinced you that with the Death it finishes the Life while it is now that it begins the stupendous road.

You will say:

But we have been deceived. Why they have not said what would have waited for us?

We would have changed the way to make we would have confronted the life with calm!

But then... what merit the children of God would have had? God is a patient FATHER and has waited... He has waited your «YES» that is very beautiful. God looks at the will and the ways of making, the result depends on God... because by yourselves could not make anything.

The thought of the death is already inside you. But what do you say? Jesus has Resurged for all, to make you see that the life doesn't finish but it is a goal of reaching with love and fatigue. Has not Jesus' example demonstrated you anything? He has Resurged, He is Alive, He is Present and Omnipresent.

With the Death there is each sweetness up there, since the suffering disappears and the soul is in the light, in the peace. On the other hand, in that instant only, it has the last possibility to choose Life or Death of the soul. It will be given up to each one the essential time to realize what happens.

It will be given up to each one the opportunity to change what was bad. It is true that until the last moment, the enemy of God scares and coaxes the soul in that last final battle, so that she falls in the desperation and believes that there is not more Mercy.

Dear brothers and dear sisters, don't fall in that serious trap. If I warn you it is because the soul has the power and the ability of deciding wisely what to make. Certain that big it will be the advantage If the Soul in life has lived in grace of God since it is already reinforced by the last temptations and it knows the tremendous enemy's traps and she has the armor of the faith as well that makes sure each taken decision that goes toward the Heavenly Father. The Soul that has lived in God knows perfectly that the Mercy of God is infinite and the tremendous enemy in that last instant he can just to confuse a little but a little and he won't be able to conquer. Resolved that to make the soul that has chosen life will be in the light and in the infinite peace of God and it will begin the stupendous road that is the prize promised by Heavenly Father.

MARVELS ON MARVELS... KNOWLEDGE ON KNOWLEDGE... EXPERIENCES ON EXPERIENCES IT WILL BE AN ETERNAL GROWTH OF THINGS OF KNOWING AND MAKING BECAUSE IN THE PARADISE ONE LIVES ON TRUTH THE ETERNAL LIFE PROMISED BY THE FATHER.

Will never get bored in the Paradise and it will be enjoyed the presence of the Sacred Trinity... of the Virgin Mary and Saint Joseph... and all the Saints and all Angels... Which are there encouraging each one that arrives in that place. PLACE... HAVE YOU UNDERSTOOD? PLACE! !

However who had chosen the darkness and had not believed in the Love and infinite Pardon of God it will be in the eternal gloom where unhappily the infernal place exists where there won't be more peace. The eternal tortures will wrap the Soul that will suffer really so much of wanting the second death but that death will never arrive and then her... will blaspheme in eternal to the Holy Father and it will really suffer in eternal hardships and unheard pains and it will be hated itself and to whichever eternally and it will be a cycle that never finishes... of hate... pain... and torture. TERRIBLE... WHAT IS THE HELL!

Then it is who chooses light but it is not purified before the eyes of God and then it begins the process of purification of the Soul that is terrible and painful suffering resemblance to which is in the hell.

The Soul knows... she is made know that this will finish in the established time and this is when herself will realize to be clean and refined to be received by the Father.

It is a long and painful process that needs of the help of the alive ones in the Earth that only with votes of Holy Masses, prayer, novenas and sacrifices will help the Souls to take off the whole mire that they have stuck. By itself those Souls anything can still make even knowing everything. They only can to accept with infinite gratitude and pray for the one who help them.

Jesus has told me:

How they can have this truth hidden? Nevertheless the insults that make you, not to give them importance of what they say of you, and leave them in their knowledge. Their arrogance is to the maximum grade of horror before the Father's eyes and who wants to impede the work that you make has great responsibility toward all the siblings of the world that had been able to benefit of these words and to begin a way of conversion.

Life and Death are in the world like good and evil.

It is a relationship non wanted by God since God has created the Life and not the Death.

The Death belongs to the enemy of God that each thing has worked to the man's disadvantage, since envious of the lavished gifts and of the wisdom that God has infused him.

Dear brothers and sisters, the characteristics of each one of you are printed in the genes that you have.

Your material body is only the cover of yourselves and they are also yourselves without that body.

Be surprised all of you that read these sacred Words. The man and the woman creatures of God are about to have the wonderful transformation announced by the Father and taught by Jesus in the day of His Transfiguration. A blinding light will surround your bodies transformed by the power of the Holy Spirit. Only the kindness and the man's love for the whole creation will be able to allow the miracle of the miracles that after two thousand years, it is not still for you understood that is to say the Resurrection of Jesus' Body. Don't look among those died to who is alive, the Angels said to guard of the Tomb. Each thing that has been said has its sense and today more than ever they have the moral obligation of studying, to meditate and to interpret the Sacred Scriptures. There also some things made by Jesus are enumerated. Let us say some... since they are thousands and thousands the made things and not described. All this to demonstrate you in advance that all that would also have been possible to you.

Jesus said: *who loves Me and follows Me... will make even bigger things than Mine.*

7

And that to want to valorize the man marvelously... son of God. To be commended and to trust in God is good and fair thing. My Faith allows me to see beyond the reality with the eyes of the heart because I am sure that all that Jesus has said... it will be. The pain in the world will increase and such a pain will make understand the man all the made errors. Only then will kneel down to ask for forgiveness and it will accept the pain like purification for himself and for the other ones. Can be the pain a gift? Yes... it is. The pain is an invaluable gift that produces wonderful fruits of conversion.

Dear brothers and dear sisters,
the light is after the darkness, after the night it arrives the day, after the rain it comes the good time, after the tempest the sea calms down, the Resurrection is after the Death and Jesus has taught it to alleviate you the pain of the death so the hope is always in your heart. If you are with Mary, she will accompany you until the death to sustain you spiritually just as she has made with her Son Jesus, conscious that later would Have resurged as you they will resurge in the last day.

One day Jesus has told me:
go Conchiglia... cry, also my Mother Mary cried!
The tears are not sign of weakness... but they are sign of ownership to your Lord...

Dear brothers and dear sisters,
with these simple words I have melted and of my heart it has flowed this prayer...

*Oh Holy and Almighty Father...
I offer you the sufferings of all Your children that are also my siblings.
Welcomes their supplications... and welcomes their requests...
they are the last ones among the last ones in how much to suffering.
They suffer in the body... they suffer in the heart... they suffer in the mind.
Yes Father... these children that you have put next to me they are falling
since strong it is the wind of the pain that shakes them
and strong it is the bitterness of these children that they are not able to sustain this pain further on.
There is Father here... I am here... take me... use me.
I still offer me to You for the salvation of Your children and my siblings
since the Love that you have infused in me for the world is really big.
I want to offer to You oh Father every time that somebody requests you help
and I want to make Your Will in each thing.
It is true Father... sometimes also scare me the duty fact to suffer for the other ones
but then when I look at the Cross and I look Your Son
and for the love that I have Him... I cannot do without of wanting of imitating him.
It is difficult Father to imitate Your Son... it is very difficult!
But I am here... I am here always... my life always belongs You
Your Blow of Love invades me.
Always this was foreseen my offer of love for the world
always the world waited somebody that still said:
Yes Father... I am here... it is completed in me Your Will.
I suffer Father... I suffer a lot... the pain sometimes squashes me
are many the times that bitter tears wet the pillow
since after having experienced the force that you infuse me...
I experience my woman fragility
that has on her the eyes of the world for Your exclusive Will.
I wanted to be the last one in all oh Father and You have put me on ahead...
so that they listened the Words of Love that you give me.*

*I would often have wanted to be in silence
and on the other hand you send me to speak Your children Priests .
I would have wanted to hide to the world...
and on the other hand you have wanted my true name «Conchiglia» that You have give me since it was
for the world.
Oh Father... the waves that drive... they submerge...
and they make then emerge Your Conchiglia they are lowering
and I am afraid Father.
It is the same sacred fear that made leave from Your Son's lips
the Words that still peal in the air:
if it is possible Father takes away from me this Chalice...
but Your Will be made.
Yes... Father... these words today they still peal in the air
since anything of Your Son Jesus has never gotten lost.
Even His sighs and groans... they are heard in the air through the time.
A pain echo is heard... that settles slightly on the faces of Your children.
They suffer and they complain... and sometimes in their pain they don't realize their great privilege.
They are imitating Your Son Jesus in the suffering that in those moments... those more painful ones... it
touches them and it kisses them just through the pain.
There is Father here... I offer to You since I am Your daughter.*

And God Father has told me:
*There is Conchiglia here...
I am ... I am the Father and I just have picked up of the garden of your heart these Words that I have
put on it. I have wanted this prayer to GOD THE FATHER THAT I AM so that the world knew the
reason of your existence on the Earth.
I bless you Conchiglia... go in peace.*

Dear brothers and sisters in Jesus and Mary,
God bless you
and the Divine Mary Our Lady of Guadalupe protects you
in the Name of the Father 🌹
of the Mother 🌹
of the Son 🌹
and of the Holy Spirit. 🌹
Amen.

Conchiglia
